- **Description:** Our Ballistic Gelatin Bow Block is perfect for testing all your bolts and arrows before your big hunt. Our Bow Block is perfect for all archers. This size gives you the archer four quadrants to shoot into and gather four times the data need for your testing. This block impact face measures in at 168 square inches / 1083.86 square centimeters. The creation of our Bow Block was to assist you the archer in choosing the correct shaft, fletching and arrowhead combination for your hunt. This block of ballistic Gelatin is meant for hunters, hobbyist, semi-professional and professional archers.

For every order of ballistic gelatin Bow Block, you get the following items:

- One - ready to use Ballistic Gelatin Bow Block (14L X 12W x 6H) – which is wrapped
- One - box holding the ballistic gelatin
- One - set of instructions for use per order
- One - set of melting instructions per order
- One - outer box containing packing peanuts and the inner box of ballistic gelatin
